STAR ACADEMY PTE LTD

3 Soon Lee Street, # 05-22
Pioneer Junction
Singapore 627 606

INTRODUCTION

Safety in Precast construction both in terms of precast production and precast installation is very critical as it involves heavy lifting, working at height and multiple handling of RC components/ products. Incidents and near-miss cases have been found in many construction sites. It is important to understand such cases and potential hazardous activity can be better managed at site to prevent accidents and limit property damage and on-time completion of project.
