INTRODUCTION

Formwork Construction is very critical and is the first activity to commence before other activities begin in every permanent work construction. There exists a gap between design professionals and supervision team on understating the requirements. It is therefore necessary to bridge the gap with clear understanding on formwork construction requirements

COURSE OUTLINE

- To understand the legal requirements related to formwork construction
- To understand New Formwork Code of Practice SS580 requirements
- To distinguish the design with code and regulations related to formwork
- To make clarity on Formwork and False work
- Provide guidelines / checklists
- Formwork supervision
- Case studies of formwork failure

TARGET AUDIENCE

- Professional Engineers (PE)/ Resident Engineers (RE)/ Resident Technical Officers (RTO) / Design Engineers
- Project managers / Site Engineers and Supervisors
- Practicing Workplace Safety & Health Officers (WSHO)/ Safety Coordinators and other Construction / Safety Professionals
